EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Androlia on July 14, 2010.

The application has been amended as follows:

Claim 8:

----- The body fluid absorbent article according to claim 3, comprising:

a body fluid storage portion that is provided in a body fluid receiving portion, said body fluid receiving portion is defined as a range in which the excreted body fluid that contacts the body fluid diffusion layer is received first within said body fluid absorbent portion. -----

Claim 10:

Replace "apart" with ----- away ----- and "the body fluid receiving portion" with ----- a body fluid receiving portion -----.

Claim 12:

----- A body fluid absorbent article[[, wherein]] comprising:

an absorbent provided in a body fluid absorbent portion, said absorbent includes a body fluid absorption and holding function and a shrinkage function when in contact with a body fluid;

an absorption control layer provided on said absorbent, said absorption control layer has a liquid impermeable range that is reduced whenever a body fluid is excreted;

said absorption control layer is a water soluble film having an absorbent-side surface that is not subjected to a water repellent treatment and an opposite surface to the absorbent-side surface that is ~~and~~-subjected to the water repellent treatment. -----

Claim 13:

Replace "said absorption cover layer" with ----- said absorption control layer ----- and remove the word "being."

Claim 15:

Replace lines 3-5 with: ----- said absorption control layer is a liquid permeable sheet that has been ~~which is~~-subjected to a water repellent treatment, and the water repellency of the liquid permeable sheet ~~which~~ is lost when ~~contacting~~ it contacts body fluid for a predetermined time or more. -----

2. The following is an examiner's statement of reasons for allowance:

Regarding independent Claim 4, no prior art is found to teach or suggest a cylindrical absorption control layer wherein the absorbent is inserted into an inner cavity of the absorption control layer. The prior art of record Matsushita teaches a urine-

soluble adhesive 32 which can act as the absorption control layer but it would not be obvious to modify the adhesive so that it encircles the entire topsheet (layers 17 & 18).

Regarding independent Claim 12, no prior art has been found to teach or suggest that the absorption control layer is a water soluble film having an absorbent-side surface that is not subjected to water repellant treatment and an opposite surface subjected to water repellant treatment. Furthermore, an opposite teaching is found in prior art Champagne, Jr. (US 3,651,809) which teaches a disposable absorbent article with a water-soluble film wrapped around parts of the absorbent, the film is coated to repel water on the surface that faces the absorbent to prevent leakage.

Other relevant prior art references on the record also fail to teach the above limitations. Ashton (US 2,964,040) teaches an absorbent article with an absorbent wrapped on the underside by a water repellent layer, but the water repellent layer is made of polyethylene (which is not water soluble). Strawinski (US 2,546,705) teaches a multi-layer absorbent wherein the interior layer is a polyvinyl alcohol film and the two exterior layers are cellulosic webs that may be treated with a water-repellent process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SUSAN SU whose telephone number is (571)270-3848. The examiner can normally be reached on M-F 9:00AM-5:00PM EST.
